

# International Workshop on Information & Computation in Civil & Environmental Engineering

## ICCEE 2012

September 19-20, 2012  
Imabari, Ehime, Japan

Organized by  
JSCE and SSSG

**Copyright Information**

Proceedings of the International Workshop on Information & Computation in Civil & Environmental Engineering 2012 (ICCEE2012)

September 19-20, 2012, Imabari, Ehime, Japan

# ICCEE 2012 Program

September 19-20, 2012

Hotel Sen-nen matsu, (25 Nagoma, Yoshiumi, Imabari, Ehime 794-2116, Japan)

## -Table of Contents-

### **(Day1) September 19**

14:15-14:20 Opening remarks

Sohichi Hirose (Tokyo Institute of Technology)

#### **Session 1 (Chair: Mitsuteru Asai, Kyushu University)**

14:20-14:40 **A.Furukawa (Tokyo Institute of Technology), T.Saitoh and S.Hirose**

Convolution quadrature boundary element method for two-dimensional wave scattering analysis by a crack ..... 1

14:40-15:00 **T.Maruyama (Tokyo Institute of Technology), T.Saitoh, and S.Hirose**

Wave Propagation Analysis Using Runge-Kutta Based CQ-BEM ..... 3

15:00-15:20 **R.Agata (University of Tokyo), T.Ichimura, T.Hori, K.Hirahara, M.Hori**

Development of a Method for Crustal Deformation Analysis Using a 3D FE High-Fidelity Model and Its application ..... 5

15:20-15:40 **K.Fujita (University of Tokyo), T.Ichimura, M.Hori, M.L.L.Wijerathne and S.Tanaka**

Combining seismic response analysis and tsunami simulation for simulating a series of earthquake and tsunami disaster ..... 7

**15:40-16:00 Break**

**Session 2 (Chair: Tsuyoshi Ichimura, The University of Tokyo)**

16:00-16:20	<b><u>T.Saitoh (Gunma Univesity), T.Maruyama, A.Ikaida, and S.Hirose</u></b>	
	FEBEM and ACA simulation of ultrasonic NDE.....	9
16:20-16:40	<b><u>B.Wang (Tokyo Institute of Technology) and S.Hirose</u></b>	
	Inverse scattering of guided waves for shape reconstruction of thinning flaw in 3-D plate .....	11
16:40-17:00	<b><u>K.Nakahata (Ehime University), S.Ido, T.Kanazawa and S.Ido</u></b>	
	Real-time image-based FIT simulation as a laptop PC application using GPU computing .....	13
17:00-17:20	<b><u>G.Nagai (Gifu University), Y.Ueda and M.Tsukino</u></b>	
	GPU acceleration of voxel FEM.....	15
17:20-17:40	<b><u>M.Kurumatani(Ibaraki Univerisity) and S.Kamino</u></b>	
	Simulation of compressive failure in cement-based materials using elasticity-spring network .....	17
17:40-18:00	<b><u>S.Okazaki (Ehime University) and I.Ujike</u></b>	
	Effects of admixing fly ash on tortuosity of concrete .....	19

**(Day2) September 20**

**Session 3 (Chair:Kazuyuki Nakahata, Ehime University)**

9:00-9:20	<b><u>S.Tanaka (University of Tokyo), S.Fangtao, M.Hori, T.Ichimura and M.Lalith</u></b>	
	The failure analysis of structure due to tsunami impacts .....	21
9:20-9:40	<b><u>M.Asai (Kyushu University), K.Fujimoto, M.Isshiki</u></b>	
	A large scale tsunami simulation by a stabilized incompressible SPH.....	23
9:40-10:00	<b><u>M.Isshiki (Ehime University) and M.Asai</u></b>	
	Visualization of large-scale particle data with different material profiles .....	25
10:00-10:20	<b><u>T. Miyamoto (Yamanashi University) and R. Honda</u></b>	
	Safety estimation of disaster prevention plan based on diversity of simulated disaster ..	27
10:20-10:40	<b><u>T.Ichimura (University of Tokyo), M.Hori, K.Fujita, R.Agata, L.Laksman and S.Tanaka</u></b>	
	On earthquake simulations enhanced by high performance computing scenarios .....	29
10:45-10:50	Closing remarks	
	Tsuyoshi Ichimura (The University of Tokyo)
