15th Environmental Study Tour to
Thailand (Bangkok etc.)

DATE: March 5, 2017 (SUN) ~ March 11, 2017 (SAT)
PLACE of VISIT: Thailand (Bangkok, Saraburi and North Thailand)

This tour is targeting undergraduate students, graduate students including international exchange students. The objective of the tour is to understand the environmental problems in overseas countries and exchanging opinions with researchers, government officers, and participants. The study tour in FY2016 will take you to the Thailand where you can see the continuous rapid urbanization, special environmental and energy strategies in Saraburi and North Thailand. The tour will offer the opportunities to visit various environment-related facilities and sites, to interact with the researchers from the Thailand universities, and to meet the students and faculty members from the other Japanese universities for networking.
