Engineers Bringing Japanese Civil Engineering Expertise to International Projects

–Challenges and Knowledge Transfer for the Future –

Program

10:00~10:05	OPENING MESSAGE
10:05~11:10	KEYNOTE SPEECH “Madam, This is Our Metro ! ” Speaker: Reiko Abe Chairperson Oriental Consultants India PVT. LTD.
11:10~11:40	SPEECH Speakers: Enkhee Bayarbat Ai Wakamiya SHIMIZU CORPORATION Japan International Cooperation Agency (JICA)
11:40~11:55	PANEL DISCUSSION Moderator: Ryunosuke Kido Associate Professor Hiroshima University Panelists: Reiko Abe / Enkhee Bayarbat / Ai Wakamiya
11:40~11:55	QA SESSION / CLOSING MESSAGE

Profile

Reiko Abe

After earning a Master's in Civil Engineering, she joined a construction company, designing large-scale underground structures in Japan. She later moved to an engineering consulting firm, where she worked on railway projects in Ukraine, Indonesia and India. She became the first female Project Manager in India for the Ahmedabad Metro Project. She currently works on the Mumbai-Ahmedabad High-Speed Rail Project while serving as Chairperson of the company's local subsidiary in India.

Ai Wakamiya

Specializing in urban development and economic geography, worked across a wide range of JICA programs in transport, urban development, regional and corridor development. Drawing on field experience gained through overseas assignments in Kenya and Zambia, currently leads the formulation and implementation of technical cooperation projects focused on urban and regional master planning.

Enkhee Bayarbat

Born into a nomadic family in Mongolia and a graduate of Chiba University, majoring in Urban Environment. Currently serving as a tunnel engineer at Shimizu Corporation on the Jakarta MRT CP202 Project. Offers a unique, multicultural perspective on the true value and future of Japanese civil engineering.
