

The 8th

CICHE-JSCE Joint Workshop

In Kyoto

Civil Engineering for Social Transformation

2026.11.05 - 2026.11.08

¥10,000 - ¥20,000

*responsible for own transportation costs

15 Undergraduated / Graduated Students

*For all nationalities

Kansai Int'l Airport, Lake Biwa Canal, Kyoto Uni.

JSCE International Activities Center Mika Ashida

TEL: +81-(0)3-3355-3452

MAIL: iad@jsce.or.jp

Outline

The main aim of this workshop is to share and exchange information related to civil engineering infrastructural design and construction, disaster risk reduction measures in structural and non-structural approaches.

This will be a great workshop that will provide the opportunity to establish joint research framework on the above topics for future collaboration between Japan and Taiwan.

This is a diverse workshop including academic researchers and students, industrial researchers and engineers, public and private persons, and all are welcome.
