Announcement of JSCE/JICA online seminar on

Maintenance and Management of Road Infrastructure

held on 30th September 2020

Organizers (to be determined)

Japan Society of Civil Engineers (JSCE)

Japan International Cooperation Agency (JICA)

Scope of the seminar

This seminar aims to discuss on the future prospects for maintenance and management of road infrastructure especially for bridges based on an introduction of present situation of road infrastructure maintenance and on-going JICA project in the Republic of the Union of Myanmar (hereinafter, Myanmar) as an example, and lectures on infrastructure management by experts from Japan. It is expected that, from Myanmar, road managers, engineers and academia will participate to this seminar. In addition, participation from not only Myanmar and Japan, people concerned from the other countries are welcome. By utilizing the advantage of online method, it is appreciated if this seminar can provide a borderless opportunity to know activities in other countries and internationally exchange information.
