

AUTHOR GUIDELINES FOR MANUSCRIPT PREPARATION

GENERAL

Manuscript must be written in English or Japanese. The manuscript must not exceed 6 pages (including figures and tables) and 5 MB in file size. Authors should follow the writing guidelines given below to provide integrity throughout the proceeding volumes. Figures, tables, photos and all other illustrations should be placed appropriately into the text.

TITLE

The title should be brief and the author's name should be typed on the line below the title; the affiliation and contact address should follow on the next line. The e-mail address should be described in a separate independent line. However, the description of the e-mail address is not mandatory. In case of co-authors, respective contact addresses should be clearly indicated.

Use 18 pt bold for the title, 12 pt for author names, and 9 pt for affiliations and addresses, single-spaced.

KEY WORDS

Provide up to about five keywords. Leave one-line spacing between the last line of the affiliation text and line of the *Keywords*. Use italics font of 10 pt. size in typing *Keywords*.

TEXT BODY

Papers should be typed on an A4 paper, single spaced (11 pt. size) with Times New Roman font (see the template). Use two-column format (column width: 8.2 cm; spacing: 0.6 cm) with 2 cm margins on all sides. Forms of main headings and sub-headings should be as follows: Main headings (like,

1. INTRODUCTION, 2. REFERENCES or 3. CONCLUSIONS) should be all in capital letters. For all sub-headings (like, **(1) Formulation**), only first letter of the sub-heading is capital. Spacing between headings (and/or text) should follow the template:

SYMBOLS AND EQUATIONS

Internationally accepted symbols should be used. All mathematical expressions must be type-written. Ensure clear distinction between similar characters (e.g., 0 and O, 1 and I). Mathematical expressions should fit into a single column. Equations that might extend beyond the width of one column (fractions that should not be broken or long expressions enclosed in parentheses) should be rephrased to go on two or more lines within column width. Numbers that identify mathematical expressions should be enclosed in parentheses and placed at the end of the line. Refer to equations in the text as "Eq. (1)" etc. or "Equation (1)" etc. at the beginning of sentence. All equations should be typed in Times

New Roman, 10 pt.

TABLES, FIGURES AND PHOTOS

All tables and figures should be numbered consequently (Table 1, Fig. 1) and should have titles and captions. The proper position of each table and figure must be clearly indicated in the paper. Type all text in tables in 9 pt. size with Times New Roman font. Captions of all figures and tables should also be typed in 10 pt. size with Times New Roman font. Figures must fit within a column (81 mm) or the full text width (170 mm). If a figure is within the text, leave 2 lines between text and figure. But do not leave any line between figure caption and the figure.

UNITS

SI system of units is required.

KEY DATES AND DEADLINES

Submittal deadline of manuscripts for peer review	May 29, 2026
Notification deadline of acceptance of manuscripts	June 22- July 3, 2026
Release of the program	July 10, 2026
Registration deadline	August 19, 2026
Symposium	August 27 and 28, 2026

GUIDELINES FOR SUBMISSION

A manuscript in PDF format for peer review should be submitted on the following website: [https://www.ac-research.jp/jsce/sediment disaster/member/](https://www.ac-research.jp/jsce/sediment_disaster/member/)
