

Guidelines for Application on the Yoshida Award, Encouraging Prize

1. Qualification

The award is given to individuals and groups (up to three people) who research concrete, reinforced concrete, and prestressed concrete and in whom the JSCE recognizes originality and potential. The applicants must be JSCE members aged 40 years or younger as of the closing date of the application. In principle, those who are former recipients of this award are not eligible.

2. How to apply

The applicants must personally apply for this award.

3. Selection

The Yoshida Award Selection Committee will review the submitted plans to determine the winners and the award amounts.

4. Award ceremony

The winners will receive a certificate of merit and the prize money during the FY 2027 General Assembly.

5. Deadline

The entry must be received no later than Wednesday, January 20, 2027.

6. Submission of application:

Please access the following URL and enter the required information.

URL : https://committees.jsce.or.jp/yoshida_sho/

7. Presentation and report of research results

The research results must be reported to the Yoshida Award Selection Committee by the end of December 2028. Prior to the report, the research results must have been presented at the JSCE Annual Meeting or published in any of the JSCE publications during the fiscal year after the planned researches were completed. The presentation or publication must clearly state that the research had received the Yoshida Award, Encouraging Prize. While people other than the award winner can be listed as co-researchers, they should not speak at the annual meeting or be designated as the head of the research group. If the research results are also published elsewhere, the publication should clearly note that the research has received the Yoshida Award, Encouraging Prize.
